

Read Pacific

Science & Chemicals catalogue

Welcome to Read Pacific's Science Catalogue

We would like to take this opportunity to thank many of you for your continued support in the Pacific Islands and NZ.

In the past 10 years our company has experienced continuous growth, enabling us to open a new warehouse in Vanuatu and to expand on our ranges in our Auckland-based head office and warehouse. We stock a wide range of educational supplies which includes laboratory equipment, maths resources, stationery, art supplies, library resources and a full range of textbooks across all subjects.

We now hold over 20000 product lines in stock and due to our strong purchasing power with international manufacturers and favourable exchange rates our prices continue to remain very stable and competitive.

If you cannot find something in our catalogue, please ask us as we can usually find it for you.

Best wishes for a successful and exciting teaching year.

All prices are in NZD and exclusive of GST.

TO ORDER:

For NZ School customers:

Please email, or order online. An invoice will be despatched with your goods. No pre-payment is required.

For overseas customers:

1. Please email your order to us.
2. We will send you a proforma invoice with details of all costs including freight.

The invoice will be in the currency of your country if located in Vanuatu, Samoa, Tonga, The Cook Islands, or The Solomon Islands. For all other Pacific Island countries you can choose to pay in AUD or NZD.

Invoice must be paid by bank draft or direct credit prior to us sending out your order.

Bank details will be provided to you when we submit our proforma to you.

Air Track

A long anodized aluminium track of special shape and proportions is mounted and aligned on a sturdy sub-base. Various gliders, which float to and fro on the air cushion, together with a large number of attachments, are provided to cover the largest range of experiments. All attachments and gliders relate to a special weight system, so that often weighing is not necessary. The various parameters of experiments may be recorded permanently by using the effective and safe spark recording system, or alternately by using the strobe lamp with photographic techniques.

May be used for numerous experiments easily and accurately with very low friction.

CODE: AIRTRA

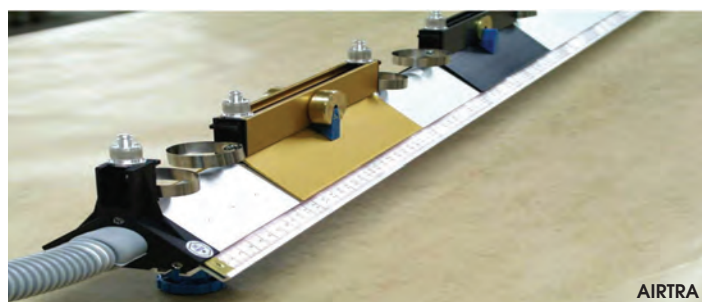

PRICE: \$898.00

Track and attachments	Code	Price
2.0 metre sub base c/w mounting kit	AIRSB	\$314.00
2.0 metre spark recording kit w/o spark generator	AIRSR	\$228.00
Photogate (S2) and cables w/o timer	AIRPG	\$340.00

Kit Contents:

Track and attachments are packed in kit form complete with instruction book

2.0 metre base for air tube, full kit and end seals

Air Track Source – (IEC)

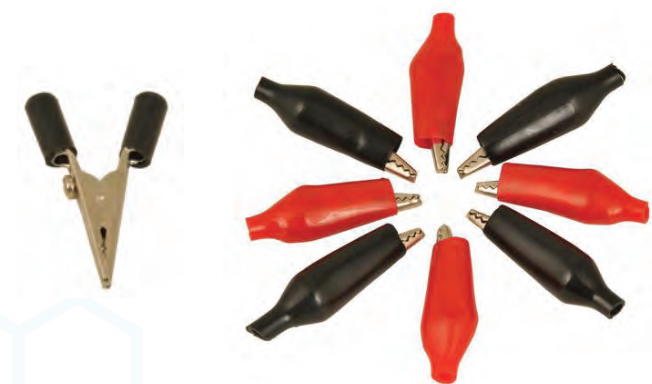

This new product from IEC is the perfect accessory for their Air Tracks. It has speed control and is exceptionally quiet.

CODE: AIRSCE

PRICE: \$395.00

Alligator Clips

Description	Code	Price
4mm Insulated Shank (Black)	ALLIB	\$1.10
4mm Insulated Shank (Red)	ALLIR	\$1.10
4mm Insulated Shank (Plain)	ALLIP	\$1.10

Alligator Clip Leads

Pack of 10.
4mm Clip Leads.

CODE: ALLIDS

PRICE: \$11.50

Amplifier - Audio

Input: 220/240ac
50/60Hz, not including microphone. Robust compact design, transistorized 500mW Audio Amplifier with large inbuilt loudspeaker (75x60mm). Complete with mains switch, volume control for speaker and output terminals, separate loudspeaker, on/off switch. Microphone jack input 2.5mm (15mV); 4mm sockets (150mV)

Outputs: 4mm sockets for CRO etc.

CODE: AMP

PRICE: \$228.00

Ammeters

(See Meters Page 17)

Apron

Rubberized for protection against spills.

CODE: APRO

PRICE: \$15.50

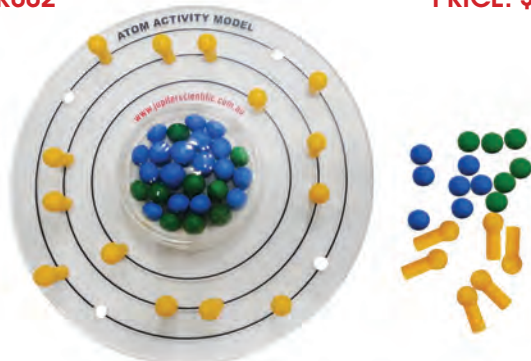

Atom Activity Model

So easy for students to build their own atoms!

Add or remove neutrons and protons to the nucleus. Peg the required number of electrons in the appropriate shells. A brilliant aid to student understanding of atomic structure, ions and isotopes. Can be used on the overhead projector for easy class demonstration.

CODE: R002

PRICE: \$36.00

Balance

Spring, Vertical pull type.

Description	Code	Price

Triple Beam - 610gm x 0.1gm. 2610 with attachment weights	BALT	\$250.00
Weight Set - For Triple Beam	BALMS	\$40.00

Ballistic Car

The apparatus consists of a heavy metallic barrel mounted vertically on an aluminium car. Spring loaded piston arrangement. The car has plastic wheels with ball bearing to minimise friction. Complete with steel balls and a lock-pin with cord. Comes with instructions.

CODE: PH0355APL

PRICE: \$60.00

Balls - Happy and Unhappy (with instructions)

2 identical balls have virtually the same mass appearance and density, but when thrown down, one bounces back while the other hits the surface and stays there.

CODE: BALLS

PRICE: \$15.00

Ball and Ring - Gravesandes

To demonstrate the heat expansion of metal. Superior quality.

CODE: BAR

PRICE: \$22.00

Banana Plugs 4mm

Description	Code	Price
Banana Plug - non solder, non screw, piggy back stackable	BPNS	\$2.10
Banana Plug - Plain Solder Type	BPS	\$0.90
Banana Plug - Side screw, side stackable	BPSS	\$2.00

500ml integral tube	CH0178C	\$5.20

Boyles Law Apparatus Simple Form

Classic design for demonstrating the relationship between pressure and volume. Consists of syringe mounted between two square wooden sections.

CODE: PH0145A

PRICE: \$45.00

Brushes

Test Tube with Fan tip.

Description	Code	Price
Small - To fit test tube up to 16mm	TTBS	\$2.00
Large - To fit test tube up to 30mm	TTBL	\$2.80
Burette Brush - To fit 750mm length	TTBB	\$4.00

Bulb Holder in Parallel

Consisting of 4 bulb holders E10 with 6.5v bulbs. Each bulb is connected in parallel by 4mm terminal socket.

CODE: PH1029B

PRICE: \$10.20

Bulb Holder in Series

Perfect for demonstrating OHM's law without messy wiring. Consists of mounted MES globe holders and 4mm terminals.

CODE: PH1029A

PRICE: \$10.20

Bunsen Burners

18mm diameter with rotatable air regulator and gas inlet tube. High calorific output.

Description	Code	Price
L.P.G	BUNL	\$19.50
Natural Gas	BUNN	\$19.50
Description	Code	Price
8mm tubing to fit above bunsen burners. Price per metre.	BUNTB	\$5.20

Burettes

Description	Code	Price
Burette: Glass 50ml, with PTFE stopcock	BUR50	\$55.00
Burette: Acrylic 50ml	BUR50A	\$34.00

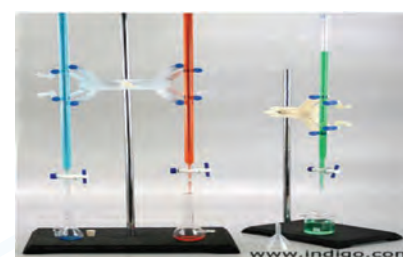

Burette Clamp

Double polypropylene.

CODE: BRCP

PRICE: \$15.50

Burette Stand - Double

Double wooden burette stand is made from seasoned hardwood and can accommodate 2 burette up to 10 mm dia. Wooden base (300x100 mm) with threaded hole, wooden support dowel (460x16 mm), and double sided clamp with 3 nylon thumb screws included.

CODE: CH0264B

PRICE: \$25.50

Calliper

PH0080

Description	Code	Price
Vernier (Metal) 150mm x 0.02	PH0080	\$22.00
Plastic version 150mm x 0.02	CALE	\$7.50

Calorimeter Cup

Inner/Outer pair with lid only.

CODE: CCIO

PRICE: \$54.00

Calorimeter Cup

75 x 50mm.

Calorimeter Cup - Nickel Plated.

CODE: CCNI

PRICE: \$17.50

Calorimeter Box & Lid

Insulated box and lid only.

CODE: CCBL

PRICE: \$10.60

Calorimeter, Joules

Calorimeter Cup, 50mm diameter, fitted with a plastic lid supporting two nickel plated brass stems connecting to a heating coil of 2 resistance. The lid is fitted with insulated 4mm socket and head terminals for connection to 6V. Complete with robust and insulated stirrer.

CODE: CCJ

PRICE: \$44.00

Carts - Dynamics

(see Trolleys Page 27)

Centrifuge

Electric 4000RPM.

CODE: CENTF

PRICE: \$498.00

Charcoal Blocks

100mm x 25mm (Pack of 10).

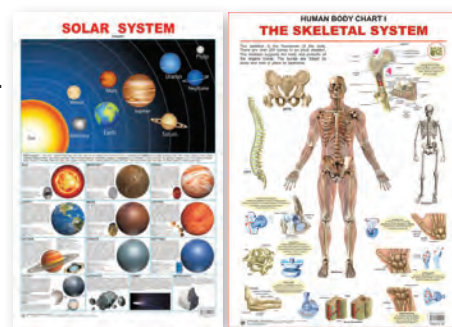

CODE: CHB

PRICE: \$16.80

Charts

Laminated 48x73cm.

PRICE: \$25.00

Chromatography Paper

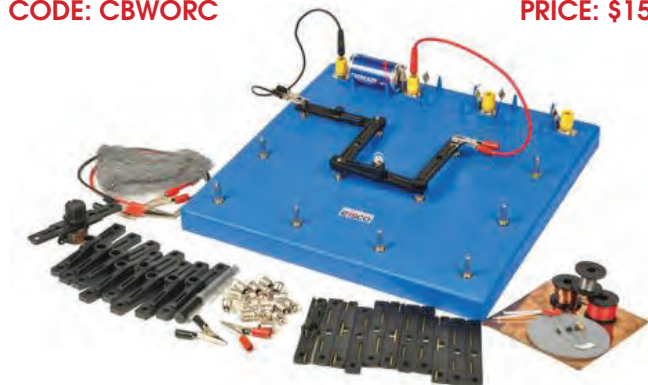

Description	Code	Price
Pack of 100 - 20 x 20cm	CP20	\$68.00
No.1 2cm x 100m	CP100	\$89.00

Circuit Board

Worcester - A complete kit - spare parts may also be ordered.

CODE: CBWORC

PRICE: \$158.00

Circuits Board

A.C. Circuits Experiment Set

Heavy duty, well ventilated for teaching AC theory. Consists of a set of high power resistors, capacitors and inductors which can be inter-connected to stimulate AC circuits. Experiments in power factor, reactance and impedance can be performed. Designed to use up to 240V.AC 50/60Hz. All components have a rating of 2 amps.

CODE: CIRB

PRICE: \$1,360.00

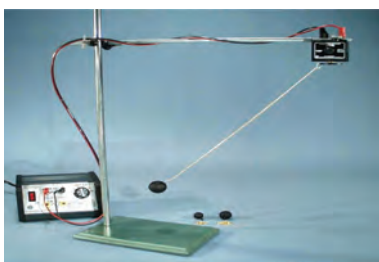

Circular Motion Kit

Mini Electric

The instrument is small and used in the classroom. The rubber ball is set in motion and is held in constant speed by a small electric motor. This product can be used with the Ripple Tank Speed Controller for excellent results. Supplied complete with excellent student worksheets for all experiments.

CODE: CMKME

PRICE: \$135.00

Circular Motion Kit

Simple PSSC

Consists of handle, glass tube, washers, cord, stopper, peg, and packed in a sturdy carton.

CODE: CMKS

PRICE : \$25.00

Clamps

Clamp - Burette

(see Burette Clamp Page 5)

CODE: BRCP

PRICE: \$15.50

Clamp - Retort

CODE: CRET

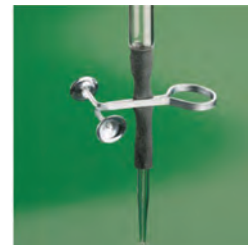

PRICE: \$10.40

Clip

MOHR 50mm length

CODE: CLIP

PRICE: \$1.60

Collision in 2 Dimensions Kit

Supplied with new type of unbreakable track for ball acceleration.

CODE: C2D

PRICE: \$40.00

Kit Contents:

- 1 piece steel base and ball support arrangement to clamp to table top, carries plastic track
- 1 piece plastic track to curve and fit steel base
- 2 pieces steel ball 16mm diameter
- 1 piece glass ball 16mm
- 1 piece plumb line to find position on floor directly below ball support arrangement
- 1 piece screw eye to hang from plumb line

Coulomb Meter - Digital Electroscop

Identifies + or - charge. Accuracy 10 nano coulombs. The display will show the number of coulombs deposited into the instrument either by current through a resistance or from a source of static electricity.

CODE: PH0913-N8

PRICE: \$62.00

Colorimeter - Student

Economic and easy to use colorimeter. Determine the concentration of a solution by comparing the intensity of its colour with that of a solution of known concentration. Battery operated. Plugs straight into a multimeter (not supplied).

CODE: C001

PRICE: \$95.00

Colour Blindness Book

100 plates. Top quality.

CODE: CBB

PRICE: \$95.00

Colour Disk

Newton's colour disk, hand spun.

CODE: NEWCD

PRICE: \$28.00

Compass - Plotting

Pack of 10. Suit OHP use.

CODE: COMP

PRICE: \$18.50

Compound Bar

(see Bimetallic Strip Page 4)

Condenser - Liebig

560mm long. Jacket length 400mm.

CODE: CONLIB

PRICE: \$22.00

Conductivity Ring

Superior quality 4 rings.

CODE: CONR

PRICE: \$56.00

Conductivity Tester

Place the probes against the material or in liquid to be tested. Brightness of the lamp indicates conductivity. Suitable for primary and secondary students. Battery operated.

CODE: CI003

PRICE: \$36.00

Connecting Leads

Description	Code	Price
Red. Banana Plug at one end, alligator clip at the other end.	PH1054	\$1.40
Black. Banana Plug at one end, alligator clip at the other end.	PH1054B	\$1.40

Connectors

(See Tubing Connectors Page 27)

Convection In Air Apparatus

CODE: 1010038

PRICE: \$55.90

Cork Borers

Nickel plated brass with rods. (Set of 6).

CODE: CORK

PRICE: \$18.20

Cotton Wool

500g roll.

CODE: COTW

PRICE: \$18.00

Cover Slips

Pack of 10gm. 22 x 22mm. Made of clear glass, the cover glasses are uniform in size and free from scratches and striations. Packed in a box for easy handling.

CODE: CVRS

PRICE: \$6.00

Crookes Radiometer

Double on wooden stand.

CODE: CRAD

PRICE: \$38.00

Crucible - Nickel

25ml with lid.

CODE: CH0084A

PRICE: \$19.90

Crucible - Porcelain

25ml with lid.

CODE: CR25

PRICE: \$2.50

Crucible Tongs

200mm.

CODE: CT200

PRICE: \$5.30

Cube Sets

Set of six. 10mm side comprising brass, lead, iron, copper, aluminium, zinc. Supplied in a plastic box.

CODE: PH0106

PRICE: \$11.50

Current Balance Kit

Small PSSC. For investigating the forces between magnetic fields and a current carrying the wire. Assembly clips directly into the end of an air cored solenoid providing connections and platforms for balance to pivot on. Does not include solenoid.

CODE: CBKIT

PRICE: \$88.00

Current Balancer

An easy way to measure the magnitude and direction of the force produced by a current carrying wire. Use your mini electronic balance to measure the force and determine the magnetic field. Attractively priced to purchase in class sets if required.

CODE: E002

PRICE: \$66.00

Cylinders - Top Quality

Schott brand available - please ask for pricing.

Cylinders, Rolling

Brass/Wood Pair

For momentum experiments. One wood outer with brass inner and one brass outer with wood inner. These rollers are of equal mass and identical physical size, however their masses are distributed differently. Their rolling characteristics are observed.

CODE: CYLB

PRICE: \$145.00

Dataloggers

Specifications and pricing are available on request.

Deflagrating Spoon

Cadium plated wire and spoon. Supplied with circular metal cover plate fitted with cork to hold spoon at any height. 380mm in length.

CODE: DESP

PRICE: \$2.90

Deioniser - Complete Unit

Complete unit includes mounting pack and cartridge. The Permutit deminimiser operates on the mixed bed ion exchange principle making highly purified water at minimum cost for even the smallest requirements. Simply connect to tap. Fully portable. Clear throwaway cartridge. Resin colour change indicates remaining capacity. No batteries or power required. Flow rates up to 25 litres per hour.

CODE: DEION

PRICE: \$186.00

Description	Code	Price
Spare cartridge	DEIOC	\$129.00
Mounting pack	DEIMP	\$58.00

Demonstration Meter - Multi Range

Housed in an ABS plastic case 300 x 150 x 300 mm with glass front and rear. The meter can be used to demonstrate the working principle of AC or DC ammeters or voltmeters with the interchangeable plastic scales. This meter is supplied with extended range box which allows one scale to be used for different ranges.

CODE: PH1116A

PRICE: \$94.00

Dialysis Tubing

Description	Code	Price
25mm flat width x 5m length	DT5M	\$38.50
25mm flat width x 30m length	DT30M	\$120.00

Diffraction Grating

3 gratings on card slide, mounted between glass plates. 100, 300, 600 lines per mm.

CODE: DIFGT

PRICE: \$58.00

Diffraction Kit

12V AC/DC with full kit of slits and filters (Complete with instructions). Excellent, compact and self-contained device to perform important diffraction of light experiments. A monofilament light source is viewed through various types of single, double and adjustable slits. The light can be coloured by the filters supplied and the frequency of the light may be measured using the diffraction pattern.

CODE: DIFKT

PRICE: \$60.00

Displacement Vessel - Metal

Metal with spout for specific gravity experiments. 225 x 125 mm.

CODE: PH0118

PRICE: \$9.95

Dissecting Equipment

Description	Code	Price
#10 blades (To fit handle #3) Pack of 100	D-8-1	\$28.00
#23 blades (To fit handle #4) Pack of 100	D-8-2	\$28.00
Scalpel handle #3	D-8-3	\$3.80
Scalpel handle #4	D-8-4	\$3.80
Dissecting Scissors sharp/sharp	D-8-5	\$3.80
Dissecting Pins (Pack of 6)	D-8-6	\$1.50
Dissecting probe	D-8-7	\$2.25
Dissecting Seeker	D-8-8	\$2.25
Dissecting set in wallet - 7 instruments	D-8-9	\$22.00
Forceps 13cm blunt	D-8-10	\$3.20

Doppler Effect Apparatus

An audible and visual demonstration of the Doppler effect. The wavelengths of a sound is affected by the motion of its source.

Twirl the apparatus above your head for students to clearly hear and understand the Doppler effect with this simple demonstration.

CODE: W001

PRICE: \$59.00

Drilled Ball Set

Multipurpose set, ideal for pendulum experiments and other lab needs. 6 balls, 25mm diameter. Each ball drilled with a 3mm diameter hole. One of each wood, aluminium, steel, copper, brass and plastic.

CODE: PH0109

PRICE: \$22.00

Drying Rack

300mm x 450mm. Wall mounted drying rack for 28 test tubes or other glassware eg. beakers, flasks. ABS plastic with PVC pegs and easy to clean design with drainage channel & outlet.

CODE: DRYRCK

PRICE: \$85.00

Dynamic Carts

(See Trolleys Page 27)

Eddy Current Unit

Two masses drop down a 33cm tube. One is steel, one is a neodymium magnet. When students see the magnetic mass falls more slowly than the steel mass, you can introduce them to electrical eddy currents. These currents oppose downwards motion through a moving magnetic field created by the falling neodymium magnet.

CODE: PH0845-EDU

PRICE: \$22.00

Eddy Currents Apparatus

Why does the prolonged plate keep swinging?

Two aluminium plates swing through a strong magnetic field. Eddy currents quickly dampen the motion of the solid aluminium plate whilst the prolonged aluminium plate continues to swing.

CODE: E004

PRICE: \$115.00

Electric Fields Apparatus

(Complete with instructions)

Designed to show the lines of electric field produced by a large electrostatic charge using an E.H.T. power supply. Can be easily placed on an OHP for viewing by the whole class. Transparent base with glass dish 90mm in diameter, 2 'T' shaped electrodes and 2 wire points can be immersed in the dish to demonstrate 2 different types of field.

CODE: EFA

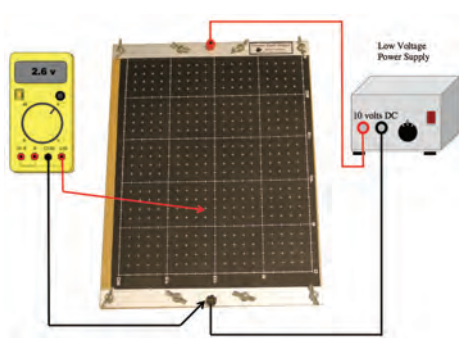

PRICE: \$52.00

Electric Field Mapper

A great aid to understanding electric fields. Explore lines of equipotential and map the electric field produced by the two charged electrodes.

CODE: E007

PRICE: \$78.00

Electric Motor Generator Kit - ASEP

1.5 to 3 volt operation. Small electric motor, mounted on a plastic base and fitted with double groove pulley. When used as a motor, weights may be winched up from the floor and energy into the motor measured. As weights fall to the floor, the motor behaves as a generator and output energy may be measured. Can drive small devices. Complete with 4mm spin free socket terminals for connections.

CODE: EMASP

PRICE: \$30.00

Electric Motor Kits

Hodson - Pair

This unique and low cost product is for the teaching of basic electromagnetics by building simple electric motors. Each motor is self contained and the commutator and brushes are created by the simple bending of wire. The motor's torque can be used to winch a small weight from the floor. An elastic band holds the assembly together and it can be easily handled or stored as a working unit. The kit contains all the parts to make 2 complete motors. These include the rotors, axles, end plates, magnets, iron yokes and both red and black insulated wire. Motor can run on either a single D size battery or a DC power supply set at around 2 volts.

CODE: EMKH

PRICE: \$49.00

Electrodes

S/S Rods with Terminals

This electrode complete with lamp connected in series with 2 x 4mm socket terminals for connection. The assembly can be supported on the mouth of a beaker for experiments on electrolytes and conductivity.

CODE: ELSSR

PRICE: \$39.00

Electrode Set

"Norwood Type"

The Norwood Electrode set is used for simple electrolysis experiments. Includes 2 carbon, 1 stainless steel and 1 platinum electrode, each mounted in glass holder. The set is complete with electrode support bracket to attach it a small beaker. Comes with instructions.

CODE: ELNT

PRICE: \$68.00

Electronics Kit

"Snap Circuits" SC 300

An excellent kit for teaching electricity-electronics (considered the best and most cost effective kit available). The components and connector system are sturdy and robust and creatively designed to facilitate and optimise learning. Students are engaged in a meaningful way through exciting projects and at all times incorporating the basic principles of electronics/electricity. The full colour, substantial student guide makes learning easy and interesting. The kit uses clearly labelled and coloured building blocks (components) and base board.

CODE: SNAP01

PRICE: \$145.00

Kit Contents:

80 page student guide (electric circuit fundamentals and components study)

300 electronic projects book - projects include AM radio, Burglar Alarm, Doorbells, Flash Lights, and much more

A large plastic base grid is included with this kit to help store and keep all the components together

Includes over 60 components - including Antenna Coil, microphone, power amplifier IC, variable capacitor, 5 fixed value capacitors, high frequency IC, 2 transistors, adjustable resistor, 4 fixed value resistors, various snap wires, jumper wires, etc

Additional or replacement components are available

Gyroscope

When this large wheel is used together with a rotating platform, they provide a dramatic demonstration of principles of gyroscopic motion at relatively low rotational velocities. Two form fitted handgrips are provided to hold the wheel which rotates on a ball bearing axle. To prevent accidental contact when wheel is being held, a protective metal shield is attached to both sides of the wheel. The supplied cord is used to spin the wheel from stationary.

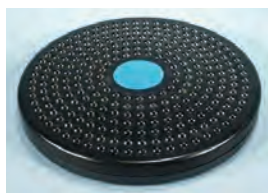

CODE: GYR

PRICE: \$290.00

Gyroscope Platform

This platform, with the Gyroscope (see Page 13), will provide students with an experience in rotational mechanics. Using the platform together with the Gyroscope wheel, you can make impressive demonstrations of gyroscopic precession, conservation of angular momentum and centrifugal force.

CODE: GYRP

PRICE: \$50.00

Halls Car

Essential for dynamic experiments. Car has low friction wheels. Durable plastic moulded body with deep well for weights.

CODE: PH0351

PRICE: \$9.95

Helical Steel Spring Kit PSSC

This apparatus is used by students to study the conservation of energy when gravitational energy is changed to potential energy in a spring. Results can be obtained to within 1% accuracy. Kit contains 1 x spring 1kg with hook, 1 x mass 500g with 2 hooks.

CODE: HSS

PRICE: \$60.00

Holder

(See Test Tube Holder Page 26)

Hoffman Voltameter

Glass, a useful, affordable example of this piece of equipment. Complete unit. Spare electrodes available.

CODE: HOFFVT

PRICE: \$180.00

Hooke's Law Apparatus

Measure and prove that the stretch of a spring is proportional to its load. You can determine harmonic motion by counting the oscillations. Illustrated instructions included. Complete kit.

CODE: PH0322

PRICE: \$25.00

Hot Glove

Slip your fingers and thumb into pouches of this rubber glove and pick up beakers and other hot objects. Textured inner surface provides grip to hold items.

CODE: HOTGLV

PRICE: \$22.00

Hotplates - IEC

Aluminium Alloy surface. 210 x 180mm.

CODE: HPIEC

PRICE: \$335.00

Hotplate/Magnetic Stirrer

(See Magnetic Stirrers Page 16)

Hydroelectric Apparatus

This unit demonstrates the generation of hydroelectric power. Running water turns a turbine which in turn drives a small generator converting the flow of water into electricity.

CODE: HYE

PRICE: \$120.00

Fleximirror

High quality mirror finished plastic sheet. Cuts easily with scissors. Safe to use & great fun for mirror distortions and periscope making.

CODE: FLXM

PRICE: \$34.00

Models - Anatomical

Brain

Natural size, 8 parts on base. Medially divided model of the brain. Both halves can be disassembled into frontal with parietal lobes, temporal with occipital lobes, half of brain stem, half of cerebellum.

CODE: MODBN

PRICE: \$102.00

Ear

3 x natural size, 6 parts mounted on board. Representation of outer, middle and inner ear. Removable auditory ossicles & labyrinth with cochlea and vestibulocochlear nerve.

CODE: MODEAR

PRICE: \$160.00

Eye

6 x natural size, 6 parts on stand. Removable parts include upper half of sclera with cornea and eye muscle attachments, both halves of choroid with iris and retina, lens, vitreous humour.

CODE: MODEYE

PRICE: \$170.00

Heart: (Large size)

3 x natural size, 3 parts. This model shows the anatomy of the human heart with ventricles, atriums, valves, veins, and the aorta in great detail. The front heart wall is removable to view the chambers and internal structures.

CODE: MODHTLC

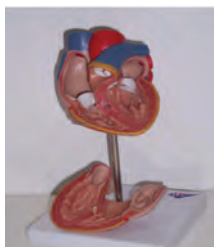

PRICE: \$198.00

Heart: (Natural size)

2 part mounted on stand 12 x 12cm. The front heart wall is detachable to reveal the chambers and valves inside.

CODE: MODHTS

PRICE: \$98.00

Human Circulatory System

Half size, mounted on board 90 x 32cm. This excellent relief model shows the arterial/venous system, heart, lung, spleen, kidneys and skeleton.

CODE: MODH

PRICE: \$355.00

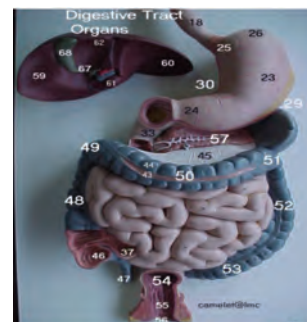

Human Digestive System

Natural size, mounted on board 90 x 32cm. Demonstrates the entire digestive system in graphic relief.

Features: Nose, mouth cavity, oesophagus, GI tract, liver with gall bladder, pancreas, spleen. The duodenum, cecum and rectum are opened. The transverse colon is removable.

CODE: MODDIG

PRICE: \$355.00

Human Respiratory System

Natural size, 7 parts, mounted on board. Model contains a two part larynx, trachea with bronchial tree, two part heart, subclavian artery and vein, vena cava and aorta, pulmonary artery, oesophagus, two lungs (front half removable), diaphragm.

CODE: MODHRS

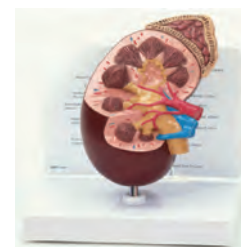

PRICE: \$355.00

Kidney

3 x natural size, 1 part, mounted on a board 12 x 12cm. Longitudinal section of the right kidney depicting all important structures.

CODE: MODKID

PRICE: \$150.00

Reproductive System - Female

Natural size, 4 parts on stand 12 x 12cm. Consists of female pelvis with a symphysis, hip bone, sacrum, coccyx, 2 lumbar vertebrae and a female genital insert with rectum, 2 part uterus can be removed.

CODE: MODFRS

PRICE: \$275.00

Reproductive System - Male

Natural size, 4 parts on stand 12 x 12cm. Median section. One half of male genital organs with bladder and rectum is removable, the other half is shown at the normal position in the male pelvis.

CODE: MODMRS

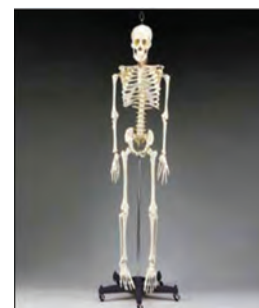

PRICE: \$275.00

Skeleton

Natural size, articulated on roller stand. These skeletons are constructed from sturdy plastic which need some simple assembly. They contain 200 bones, have easily removable limbs and a 3 part mounted skull.

CODE: SKELFS

PRICE: \$785.00

Models - Anatomical

Skeleton - Mini

51cm high.

CODE: SKELM

PRICE: \$220.00

Torso

15 Part with interchangeable sex organs. Full Size.

CODE: TOR18

PRICE: \$990.00

Models - Plant/Animal

Animal Cell

Enlarged 20,000 times. The model shows the recently discovered principle of the delicate structure of an animal cell. In addition to the organelles like nucleus, endoplasmic reticulum, mitochondria ribosomes respectively polysomes and Golgi apparatus. Also showing centrioles, lysosomes and fat vacuoles. The presentation of the process of extrusion of a Golgi vesicle and pinocytic signs shown by the cell dynamics. Mounted on a base and includes numbered key card.

38 x 24 x 48cm approx. 2.5kg approx.

CODE: ZM0002

PRICE: \$75.00

Types of Ovules

Model showing four different types of ovules: Anatomic, Orthotropic, Campylotropic and Amphitropic ovule. The model representing the ovules dissected longitudinally are displayed side by side, thus allowing the best way of studying and comparing. Mounted on a base and includes a numbered key card.

51 x 45 x 4cm approx. 2kg approx.

CODE: BM0122

PRICE: \$75.00

Animal Cell Division - Meiosis

Set of 12 models, showing detailed stages in meiotic cell division, beautifully coloured to bring out the detailed structure as seen under the microscope. Mounted on a base. 50 x 45 x 4cm approx. 2.4kg approx.

CODE: ZM0010

PRICE: \$75.00

Animal Cell Division - Mitosis

Set of 10 models, showing resting cell, early prophase, prophase, late prophase, metaphase, anaphase, late anaphase, telophase and daughter cells. Mounted on a board. 50 x 45 x 4cm approx. 2.2kg approx.

CODE: ZM0006

PRICE: \$75.00

Typical Flower Dissectable

Representing a greatly enlarged idealised complete flower, this non-break resistant plastic model teaches angiosperm pollination and fertilisation. Mounted on a base and includes a numbered key card. 37 x 25 x 31cm approx. 1kg approx.

CODE: BM0001

PRICE: \$62.00

Typical Plant Cell With Base

An electron microscopic structure showing a portion of wall. Remove to show ectoplast, endoplast, tonoplast, vacuoles nuclear structure, plastids, mitochondria etc. On a base and includes a numbered key card. 33 x 23 x 5cm approx. 800gm approx.

CODE: BM0008B

PRICE: \$58.00

MOHR - Clip

(See Clip Page 7).

Molymods

All parts available. These are genuine molymods from the UK.

001 Introductory Set (Organic)

Kit Contents:

20 hydrogen, 12 carbon, 7 oxygen, 6 halogen, 2 nitrogen, 1 sulphur, 26 medium grey links, 10 long grey flexible links, 26 short white links, 1 short link remover tool, 1 instruction leaflet.

CODE: MMD001

PRICE: \$88.00

003 Organic (Teacher set)

Kit Contents:

40 hydrogen, 24 carbon, 12 oxygen, 12 halogen, 4 nitrogen, 1 sulphur 2 holes, 1 sulphur 4 holes, 2 metal 1 hole, 55 medium grey links, 25 long grey flexible links, 60 short white links, 1 short link remover tool, 1 instruction leaflet.

CODE: MMD003

PRICE: \$179.00

004 Organic/Inorganic Set

Kit Contents:

14 metal, 6 carbon, 22 oxygen, 10 nitrogen, 4 nitrogen, 13 sulphur, 7 phosphorous, 14 hydrogen, 8 halogen, 12 medium purple links, 38 medium grey links, 36 long grey flexible links, 1 instruction leaflet.

CODE: MMD004

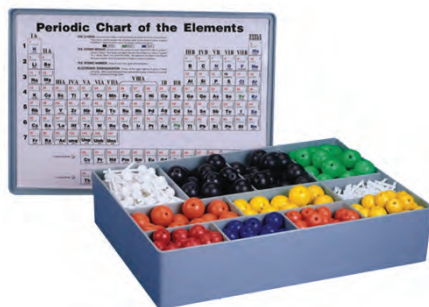

PRICE: \$149.00

Atomic Model - Full Kit (Tarsons)

Senior set. 150 lugs and 370 balls in different sizes and colours. Instruction manual included. Excellent value for money.

CODE: ATMLGE

PRICE: \$260.00

Mortar & Pestle

Porcelain

Description	Code	Price

Motor Construction Kit

Simple type. Assists students to investigate the principles, design and operation of series & shunt wound field coil & permanent magnet DC motors. This kit is designed for constant process of dismantling and assembling.

CODE: MCK

PRICE: \$35.00

Multimeters

Digital 3.5 digit 19 range

Affordable, popular multimeter copes with junior science and most senior physics work. It is being used to replace analogue meters. Fuse protected. Transistor and diode test.

CODE: DM19

PRICE: \$18.00

Ranges:

DCV 0.2V, 2V, 20V, 200V, 1000V

ACV 200V, 750V

ACA 200uA, 2mA, 20mA, 200mA, 10A

Resistance 200, 2k, 20k, 200k, 2M ohms

Digital - Auto ranging

A suitable meter for senior physics and electronics course work.

Auto or manual ranging with data hold and autpower off.

CODE: DM1456

PRICE: \$90.00

Ranges:

DCV 400mV, 4V, 40V, 400V, 600V

ACV 400mV, 4V, 40V, 400V, 600V

DCA 400uA, 4mA, 40mA, 10A

ACA 400uA, 4mA, 40mA, 10A

Resistance 400, 4k, 40k, 400k, 4M, 40M

Capacitance 4nF, 40nF, 400nF, 4uF, 40uF, 200uF

Frequency 9.99Hz 9.99MHz

Temperature 20C to 1000C

Digital 3.5 digit 30 range

Fuse protected.

CODE: DM1447

PRICE: \$94.00

Ranges:

DCV 200mV, 2V, 20V, 200V, 1000V

ACV 2V, 20V, 200V, 700V

DCA 2mA, 20mA, 200mA, 20A

ACA 20mA, 200mA

Resistance 200, 2k, 20k, 200k, 2M, 20M, 200M

Capacitance 200pF, 20nF, 200nF, 2uF, 20uF

Temperature -40C to 260C using the probe supplied

Newton's Cradle

Demonstrates Newton's 3rd law of motion and the principle of conservation of momentum.

CODE: NEWC

PRICE: \$35.00

Newton Fan

The Newton Fan can be used to convert most dynamics carts quickly and easily into a fan cart. Adjust the angle of the fan to demonstrate how forces can be resolved into their vector components. Confirm Newton's 2nd law. Dynamics carts not included.

CODE: M011A

PRICE: \$78.00

Optical Bench & Kit

This student optical bench kit requires a Hodson Light Box as its source (not included, can be purchased separately). The 1.2 metre long straight alloy rail is complete with metric scale & carries all the kit parts on plastic mounts. The kit contains mount for light box, optical targets & scale, white screen, large prism & rotatable table, set of 50mm bi-convex & bi-concave glass lenses of various focal lengths with holders.

CODE: OPBK

PRICE: \$229.00

Organic Chemistry Set

This boxed set is designed to enable organic chemistry to be taught to an advanced level. Set includes 50cm³ pear-shaped flask, stillhead, Liebig condenser, screwcap adaptor, receiver adaptor, thermometer 0-360 degrees, 50cm³ dropping funnel, air leak-stream inlet tube.

CODE: OCS

PRICE: \$135.00

Oscilloscope

Dual trace, dual trigger 20MHz CRO. Suits a wide range of applications. CRO with fully adjustable sweep time (in 10 steps), variable hold-off, fully adjustable sensitivity, switch selectable trigger X-Y operation, selectable trigger modes, AC/TV/H/TV V trigger coupling, front panel variable trace rotation & sweep rate from 10ns/DIV to 1S/DIV.

CODE: OSCP

PRICE: \$856.00

Specifications

Vertical sensitivity: 5mV/div to 5V/div (x 1 mode); 1mV/div to 1V/div (x 5 mode)

1-2-5 sequence, 10 step attenuator

Sweep speed: 0.1us/Div to 0.3s/Div in 1-2-5 sequence; 20 steps

Sweep magnification: 10x

Rise time: approximately 17.5ns

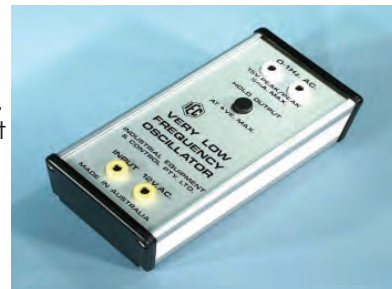

Operating modes: CH1, CH2, Alt, Chop, Trigger

Trigger sensitivity: Internal 1.5 division (1.0 division with TV coupling); External: 500mV

Trigger source: CH1, CH2, Alt, Ext, Line

Oscillator

Input 12V.AC Very low frequency AC. Sine generator. A fixed 0.1Hz +/-5% sine wave oscillator. Output: 15V Peak/Peak at 5mA maximum. Control is by a press button to stop oscillation to hold output as a steady 7.5V. Upon release of button, oscillations will begin from 7.5V. Input & output connections are 4mm sockets. The instrument can be used to demonstrate half wave and full wave rectification & using the inductance apparatus, experiments can be performed to demonstrate relationships in capacitors & inductors.

CODE: OSCT

PRICE: \$195.00

Pendulum Bobs - Set of 3

Comprising a solid sphere of one each brass, copper and iron having diameter of 25mm with a small ring for suspension.

CODE: PH0306F

PRICE: \$19.95

Periodic Table

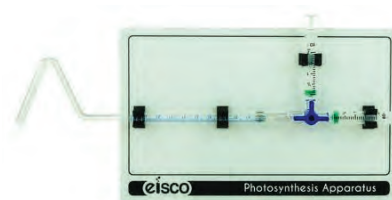

(See Charts Page 6)

Petri Dishes

Description	Code	Price
90mm diameter (Pack of 20)	P-01	\$6.00
90mm diameter (Pack of 500)	P-02	\$118.00

Photosynthesis Apparatus

For the measurement and collection of gas evolved by aquatic plants during photosynthesis. The gas evolved can be measured by the calibrated capillary tube and drawn off for analysis by the plastic syringes. Mounted on a plastic panel. 190 x 150mm approx.

CODE: BI0228

PRICE: \$26.00

PH Colour Chart

Classroom size. 75 x 100cm shows the various colours. Printed on polyart plastic sheet, fitted with plastic roller.

CODE: CH0599

PRICE: \$16.00

Pipette Stand

Polypropylene, holds up to 6 each side, horizontally.

CODE: CH0592

PRICE: \$19.00

Pi-Pump

Red, 25ml.

CODE: PIPP

PRICE: \$18.00

Pneumatic Trough

240mm diameter.

CODE: PNTR

PRICE: \$50.00

Pond Net

25cm diameter. Ideal for catching and collecting insects, frogs, tadpoles etc.

CODE: POND

PRICE: \$4.95

Potometer

Ideal for laboratory or field use. Allows students to measure transpiration with minimal risk of breakages. The apparatus has only one glass component (capillary tube) and is mounted on a strong plate. It consists of capillary tube with millimeter scale connected via 3-Way tap to syringe. The cut shoot is connected to a third outlet. The apparatus can also measure humidity by connecting a porous pot to the third outlet.

15 x 16 x 8 cm. Capillary tube 120 x 1 mm.

CODE: BI0192

PRICE: \$23.50

Pottle

30ml clear unlabelled pp specimen pot with screw cap. (Pack of 100)

CODE: POT

PRICE: \$45.00

Power Microphone

The power microphone has been specifically designed for providing powerful signals in an easy and quick manner to your oscilloscope. Battery powered BNC type connector. This microphone has enough power to demonstrate quiet sounds and has a very easy connection.

CODE: W002

PRICE: \$58.00

Power Supply - IEC: LB2633-001

2-12 volts 5 amps. AC or DC. Both AC & DC outlets protected by automatic self resetting overload. Robust and reliable. Very popular in schools. Many more specs available.

Signal Generator - IEC Dual Wave, Digital

The IEC digital "Wave-Lab" is a special dual wave Signal Generator for the study of wave theory. This microprocessor generates 2 x sets of very accurate and absolutely stable frequencies up to 40kHz that can be added to one another, exactly shifted in phase relative to one another or modulated by one another. Waveforms can be selected as sine, triangular or sawtooth and high power amplifiers permit the driving of large speakers or headphones for private listening. An oscilloscope can be used to view the waveforms and effects. Harmonics, beat frequencies and other phenomena can be studied. Output power is digitally controlled and a keyboard system allows any frequency to be entered. External signals can be applied and a microphone and headphones are included in the kit.

CODE: LB3756-101

Sodium Spectral Lamp

An ideal light source for diffraction experiments and spectra work. Very useful and safe with built in high voltage power supply.

CODE: NALAMP

PRICE: \$640.00

Soil Testing Kit

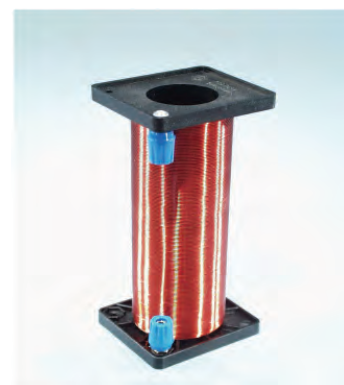

Portable and easy to use for testing fertility of soil. Test pH, nitrogen, phosphorus, potassium and organic carbon availability in soil.

CODE: STKT

PRICE: \$120.00

Solenoid

Copper coil with 4 mm terminals. Wound with 660 turns of copper wire on a bobbin 71 x 150mm bore x length. This simple coil is designed to stand on its end and can be used for many magnetic experiments, including Hall Effect, Mass of Electron, Current Balance experiments & similar. Connections are made by standard IEC style 4mm socket terminals.

CODE: SOLND

PRICE: \$108.00

Sound Level Meter

Decibel readings for both indoor and outdoor noise monitoring. Features 2 ranges 40-80 dB & 80-120dB. Includes single-selection switch, low battery indicator, carry case & instructions.

CODE: SLM

PRICE: \$159.99

Sound Pipe

5 possible frequencies can be detected from this whirling pipe.

CODE: SNDPIP

PRICE: \$14.00

Spatula

Stainless steel, bent at one end 175mm, Chattaway.

CODE: SPAT

PRICE: \$2.80

Specific Heat Cylinders Equal in Mass

6 cylinders in length from 5 to 19cm. Drilled for suspension. One each of copper, lead, brass, zinc, iron and aluminium. Presented in convenient storage stand.

CODE: PH0432

PRICE: \$29.00

Specific Heat Cylinders Equal in Size

6 cylinders, 38 x 9.5mm. One each of copper, lead, brass, zinc, iron and aluminium. Presented in convenient storage stand.

CODE: PH0434

PRICE: \$21.00

Spectroscope

This spectroscope is fitted with a high efficiency grating to the eyepiece which produces a brilliant spectrum even with poor light. The adjustable slit permits the maximum resolution & the sharpest bands at predominant wavelengths viewed directly against a scale calibrated in nanometers.

CODE: SPECT

PRICE: \$58.00

Tote Tray Trolley

Various available (Please enquire for details and price).

Transmission Lines Model

There is now a safe way to demonstrate step up/down voltages. Adjust the size of the voltage. Demonstrate easily and safely why power companies step up/down the voltage when transmitting electricity over large distances. Voltage can be stepped up or down in a voltage ratio of 0x, 8x 12x, and 16x. Observe the change in brightness of the Consumer lamp as you do so. Measure power losses within the transmission lines Fully self contained unit. Use your multimeter to measure step up/down voltage and currents. Compact unit (37cm long) for easy storage.

CODE: E023

PRICE: \$399.00

Tripods

Triangular, cast iron.

Trolleys - Dynamics Carts

Australian Made IEC Dynamic, hyper fire cart

(Pair) Price for pair.

Low cost, high quality & very durable. Safety catch to prevent unwanted firing. Low friction, low mass wheels for better accuracy. Wheels mounted inside the body to prevent tangling with cords, rigid, non-twist body designed for heavy loads, non slip platform surface. Stackable design for doubling or tripling weight. Hook and claw pads for non-elastic collisions. Accurate cart weight of 600gm.

CODE: TRODC

PRICE: \$168.00

EISCO Brand (Similar specs to above)

Price for pair.

CODE: PH0351PL-N8

PRICE: \$62.00

Trolley

Laboratory Trolley (80cm x 55cm x 100cm) Strong multipurpose laboratory trolley with three shelves. It has large castor wheels with two brakes. Stainless steel end frame with white PVC shelves. Comes flatpacked.

CODE: GE5579-01

PRICE: \$355.00

Trundle Wheel

Easy grip handle adjusts for student/teacher heights. Has it's own counter which measures up to 99,999 meters.

Vacuum Pump

Robust 240V pump for a wide range of applications.

CODE: VACPMF

PRICE: \$525.00

Van De Graaff - IEC Model

Large 400kV, variable speed. Upper pulley is mounted in ball races and the combs are easily adjustable for position. The power of the drive motor is adjusted by a small electronic speed controller so that slowing of the belt becomes evident as the charge is transported into the upper sphere. A static charge is induced on the rubber belt when it contacts the motor pulley. The belt carries this charge progressively to the large upper sphere where it adds to the existing charge. Kit comes complete with 75mm diameter Discharge Ball with handle together with a cable for earthing the ball to the terminal on the front panel. The Upper sphere is 275mm diameter.

CODE: VDGIEC

PRICE: \$798.00

Description	Code	Price
Replacement Belt for IEC Model	VDGB	\$46.00

Videoscopes

Please contact us for directly for product options and pricing.

Voltameter

Simple electrolysis experiment. Produce and collect hydrogen and oxygen gases. Perform simple electrolysis experiments. Very easy to use.
